Fishing Kayaks

<https://www.rockandlake.com/en/booking/outdoor-activities-in-finland/45107>

Price 180€/ week one kayak 300€/ two kayaks 1 week.

A good addition for ex to the FlatRock boat as part of the group can go to places to which boats cannot reach. Especially during the springtime big pikes are near the shore line in the shallow waters.

There is a kayak rack at the FlatRock and on this you can easily transport them on the lake. The normal kayak transfer price will not be charged if they are rented as addition to the FlatRock ferry boat.

General information

Rental cottage includes one or two rowing boats. Some cottages have additional cottage-specific boats and engines that are shown as an additional product for each cottage when the time period is selected on webshop.

Lake Puula and Lake Kyyvesi have routes that appear on the chartplotter and the application on the charts available from the stores.

A good watercourse map we recommend downloading a google play store: karttaselain (free 30day) (also off-line) <https://play.google.com/store/apps/details?id=com.accelbit.karttaselain&hl=fi>

No license is required for rental boats. The guide is included in the price and we also recommend a guided fishing trip to the beginning whereby the guide can go through the fishing areas of the fishing area and know where the fish can be most easily accessed.
